DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Response to Arguments

2. Claims 12-40 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 13-23 of copending Application No. 10/772,424 as applied to the rejection of claims 12-21 set forth in the last office action and further discussed below.

2.1 Applicants asserted that the double patenting rejection must be withdrawn if “the provisional obviousness type double patenting rejection is the only remaining rejection”; citing MPEP 804 section 1, subsection B. However, that would only be true if the conflicting application is rejected on a different ground. See MPEP 804, section 1, subsection B2. Here, the conflicting application has not been examined, thus the double patenting is hereby maintained.

3. Applicant’s arguments with respect to the rejections under 35 USC 103 have been fully considered and are persuasive. Thus the rejections are hereby withdrawn.

4. References cited are considered pertinent to the claimed invention. The Mattrey patent (US 6,444,192) teaches using particulate contrasting agent and disfavors nanoscale particles. The Klaveness patent (US 6,159,445) teaches the use of nanoscale contrast agent, but there is no teaching of semiconductive material as the contrast agent. The Toida patent (US 6,636,755) teaches the use of near-infrared fluorophore.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
